

SCHEDULE OF SPEAKERS AT THE OPEN FORUM SESSION
7TH NATIONAL HEAT TRANSFER CONFERENCE
CLEVELAND, OHIO
AUGUST 11, 1964

1. **Thermal Stability and Transition Boiling**
Eugene P. Adiutori
Stability Consultants
P.O. Box 18062
Cincinnati, Ohio
2. **Subject to be announced**
Professor S.T. Hsu
Department of Mechanical Engineering
Virginia Polytechnic Institute
Blacksburg, Virginia
3. **The Influence of Sound on the Local Heat Transfer
from a Cylinder -- a Close Look**
Professor Peter D. Richardson
Brown University
Providence, Rhode Island
4. **Wall Jet Heat Transfer Coefficients**
J.C. Akfirat
Research Engineer
Ford Motor Company
Applied Research Office
Dearborn, Michigan
5. **Heat Balance Integral Methods for Arbitrary
Initial Conditions**
Professor Fred Landis, Chairman
Mechanical Engineering Department
New York University
Bronx, New York
6. **Theoretical Considerations in Nucleate Boiling**
Professor Richard L. Hummel
University of Toronto
Toronto, Ontario, Canada
7. **Convective Heat Transfer to Mercury in Laminar
Flow Through a Circular Tube**
Professor E. R. G. Eckert, Director
Thermodynamics and Heat Transfer Laboratory
Department of Mechanical Engineering
University of Minnesota
Minneapolis, Minnesota
8. **Influence of Suspended Solids on Nucleation at
Low Boiling Heat Flux**
Professor William C. Biró
Department of Mechanical Engineering
Clemson University
Clemson, South Carolina
