

April 9, 1964

Dr. Richard F. Gaertner
GE Research Laboratory
Box 1088
Schenectady, New York

Dear Dr. Gaertner:

Enclosed is one copy of a manuscript entitled

Nucleate Boiling--The Relationship Between Heat
Flux and Thermal Driving Force by Eugene
F. Adiutori

per your request in your letter dated February 14, 1964.
It is my understanding that subject manuscript will be con-
sidered for presentation at the symposium on "Heat Transfer
during Phase Changes" to be held during the 57th Annual Meeting
of the AIChE in Boston on December 6-10, 1964.

I am also sending three copies to Dr. David Miller as you
suggested in earlier correspondence.

I look forward to receiving the committee's decision with
regard to acceptance or rejection of my proposed presentation.
I would also appreciate your informing me of the approximate
date by which this decision might be reached.

Thanks for your trouble.

Sincerely yours,

Eugene F. Adiutori
President
