April 7, 1965

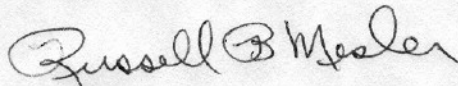

Mr. Eugene Adiutori  
Stability Consultants  
Cincinnati 18, Ohio

Dear Mr. Adiutori:

I enjoyed reading your advertisement in the April 1965 issue of Neucleonics. I would very much appreciate a copy of the manuscript with the figures.

I sympathize with the suggestion to use a linear graph instead of a log-log graph to report nucleate boiling data. I am enclosing a reprint of a paper which bears on this.

Very truly yours,

Russell B. Mesler  
Professor
