Dear Dr. Adiutori,

I am sorry that it has taken so long to get back to you. Prof. Katz was traveling and then we were closed for the holiday.

Yes, we received your manuscript, and Prof. Katz read it. However, he believes that the material does not fall within the scope of JFE. He suggests your manuscript would be better suited to a civil engineering journal with an audience of practicing engineers.

We wish you success in finding a more appropriate publication for your work.

Regards,

Laurel Murphy  
Editorial Coordinator, JFE

Dear Laurel Murphy,

Please let me know whether or not you received my manuscript entitled "A Transformed Moody Chart That Is Read Without Iterating". It was attached to my e-mail of November 17.

Thanks!

 Gene Adiutori
