Dear Mr. Adiutori:

My apologies for not writing to you sooner regarding the advertisement that you submitted for the July issue of NUCLEONICS.

Since receiving your letter, we have gotten a number of comments from people in the field regarding your article that we carried in the May issue. The letters were critical, but provided no details. I am presently seeking specific comments from the individuals who wrote us. Until I get these responses, I feel we are not in a position to publish the ad.

You will be hearing further from me later.

Sincerely yours,

*Jerome D. Luntz/d.a.*
