

Telecon - 12/3/73

My call to Prof R.C. Reid, AIChE Journal Editor

I called to see if he was doing anything about my letter of 11/9/73. He said the matter was active + that the AIChE Heat Transfer Division was considering the matter. He said he expected to have the matter resolved and that he would notify me within a week.

He asked what had happened in 1964 and I told him that Hsu + Westwater would not let Bliss publish it.
