August 23, 1987

Dear President Adiutori,

I regret very much that I missed to meet you in San Francisco last August during The 8th International Heat Transfer Conference on which I presented a keynote paper.

Your book has drawn my great interest for long time (New Heat Transfer 1974). Since 1984 I have taken it as the heat transfer textbook of my lecture for graduate students. Naturally, there are several examples coming from my research work in my lecture which strongly support your viewpoints in New Heat Transfer. In this regard, I would like to have academic contact with you, if possible.

In addition, I now plan to translate your book into Chinese in order to let more Chinese readers learn your outstanding viewpoints in heat transfer area. I would be very much obliged to you if you could inform me how I can get the latest edition of "New Heat Transfer". I am looking forward to hearing from you.

Your sincerely

Guo Zengyuan
