Dear Dr Adiutori

I am writing in reply to your letter dated 5th January addressed to Professor Spalding concerning your manuscript "A New Look at the Origin of the Heat Transfer Coefficient Concept".

On receipt of your resubmitted manuscript (10th September 1986) Professor Spalding sent your paper to Professor Hartnett at the Energy Resources Center, University of Illinois, who is the Coordinating Editor of International Communications in Heat and Mass Transfer. It was decided to publish your paper in the Communications journal and I had assumed that Professor Hartnett would then contact you to this effect.

I suggest that you contact him at:
